

NIGEL DENAYA MANUWU NAYAR

+6281256262477 | nigelNayar0@gmail.com | [linkedin.com/in/nigelNayar0](https://www.linkedin.com/in/nigelNayar0) | nigelNayar.github.io

Cilebut Barat, Sukaraja, Bogor Regency

Heavily involved in competition robotics as Head of Electrical Division at Reignblaze TRUI, and experienced in PLC/SCADA systems, PCB design, and CMOS circuit design. Full project write-ups and certificates available on **my portfolio site** (nigelNayar.github.io).

EDUCATION LEVEL

Universitas Indonesia

Undergraduate in Electrical Engineering, Faculty of Engineering

GPA: 3.29/4.00

Kota Depok, Jawa Barat, Indonesia

Jun 2023 – Jul 2027 (Expected)

- Awarded 2nd Place at PKM PI (Program Kreativitas Mahasiswa Penerapan IPTEK) held by PKM FTUI 2025 (out of 5 participating projects).
- Became the head of Electrical Division at Reignblaze TRUI (Tim Robotik Universitas Indonesia).

WORK EXPERIENCES

PT Elsewedy Electric Indonesia

Summer Intern

Cileungsi, Bogor Regency, Jawa Barat, Indonesia

Jul 2026 – Present

The PT Elsewedy Electric Indonesia Summer Internship Program is a structured 5-week skills enhancement program designed to bridge the gap between academic theory and the real-world Power Transformers industry.

- Selected for a 5-week structured internship program bridging academic theory with the Power Transformers and high-voltage grid industry.
- Currently undergoing intensive in-class technical training alongside professional development, team building, and cross-functional collaboration modules.

Asisten Mahasiswa MKF FTUI

Teaching Assistant

Fakultas Teknik, Universitas Indonesia, Kota Depok, Indonesia

Feb 2026 – Jun 2026

A Teaching assistant gives aid to the lecturer in charge in the learning process and administration.

- Evaluated and graded coursework, quizzes, and exams, providing detailed and constructive feedback to enhance student comprehension.
- Facilitated assistance sessions, guiding students through complex algorithmic concepts and problem-solving strategies.

ORGANISATIONAL EXPERIENCE

Reignblaze, TRUI (Tim Robotik Universitas Indonesia)

Head of Electrical Division

Universitas Indonesia, Kota Depok, Indonesia

Feb 2024 – Present

Reignblaze is a robotics team at the University of Indonesia that participated in the Indonesian Search and Rescue Robot Contest (KRSRI).

- Responsible for the development of internal electrical components for the robot as a key member of the team.
- Led the team's electrical division in troubleshooting, designed PCBs (using Altium Designer/EasyEDA), and built circuits to ensure 100% optimal robot functionality.
- Collaborated cross-functionally with the Mechanical and Programming divisions to ensure seamless electromechanical integration and compliant adherence to official KRSRI regulations.

TECHNICAL SKILLS

- Industrial IoT & Automation (2026):** Proficient in Industrial Automation and control systems, and PLC programming
- PLC Programming (2026):** Familiar in PLC programming and ladder networks
- EDA (2024):** 2 years of experience in PCB Design (EasyEDA, KiCad)
- HDL Programming(2026):** Experience in HDL Coding (Verilog, VHDL)
- MATLAB (2024):** Experienced in using MATLAB for data analysis and visualization
- Robotics & IoT (2023):** 3 years of experience in tinkering with robotics and IoT components (Arduino, ESP32, Actuators, Sensors, and Serial Communications)
- Programming(2020):** 6 years of experience in coding (Python, C/C++)

SOFT SKILLS

- Public Speaking:** Able to present complex topics in a clear, concise, and digestible manner
- Teamwork & Adaptability:** Thrive in collaborative workplaces; able to adapt quickly to new environments
- Verbal Communication:** Communicates effectively to ensure alignment on project goals.
- Critical Thinking:** Able to break down technical and operational problems, evaluate root causes, and develop solutions under tight constraints

LANGUAGES

- English (2024):** Fluent, IELTS Overall Band Score: **8.0**
- Bahasa Indonesia:** I am a native speaker of Bahasa Indonesia.
